

Department Description

The Park and Recreation Department provides a multitude of facilities and services for neighborhoods and plays a key role in the quality of life for the community. The Department manages three major service areas that contribute to various Mayor and City Council priorities: Parks and Open Space, Recreational Facilities, and Recreational Programs.

Parks and Open Space

There are over 39,000 acres of parks, open space, and aquatic areas available throughout the City. The Department provides a wide variety of opportunities for San Diegans to renew mind, body, and spirit in healthy outdoor settings.

Landscaped and natural environments provide valuable opportunities for individuals, families, and groups to enjoy passive and active leisure. Joint-use agreements with schools maximize park use and provide active, programmable sports turf in park-deficient neighborhoods. Open space areas conserve and protect sensitive habitat and cultural history, and provide educational opportunities. There are 49 Maintenance Assessment Districts located throughout the City that provide property owners the opportunity to assess an annual fee in order to pay for enhancements services and other improvements/activities beyond those generally provided by the City.

Recreational Facilities

The Department operates and maintains a large number of recreational facilities. These facilities include recreation centers, playgrounds, teen centers, athletic fields, tennis courts, swimming pools, campgrounds, nature and visitor centers, gymnasiums, meeting rooms, historic sites, amphitheaters, skate parks, boat launch, docks, a lake, piers, dog off-leash areas, and more. These facilities bring people with diverse backgrounds together to enjoy special events, relax, and strengthen community bonds. The Department also operates several golf complexes and Mount Hope Cemetery which provides low-cost burial services.

Recreational Programs

Recreational programs, team sports, and activities help build self-esteem, confidence, social harmony, independent thinking, and self-discipline while improving overall health and promoting conflict resolution skills for youths and

adults. Programs offered throughout the City vary but can include ceramics, learn-to-swim, karate, gymnastics, dance, soccer, basketball, water polo, nature walks, golf, day camps, softball, holiday and cultural events, outdoor movies, senior trips, tiny tot classes, therapeutic recreation, and much more.

The Department's mission is:

To acquire, develop, operate, and maintain a park and recreation system that enriches the quality of life for residents and visitors alike, and preserve it for future generations

Goals and Objectives

Fiscal Year 2010 goals and objectives are reprinted here as they were originally adopted. They have not been updated to reflect mid-year budget reductions, as implementation of those changes will occur in phases during the remainder of Fiscal Year 2010, making it difficult to provide reliable projections of service levels and performance targets. Additionally, an effort is currently underway to update the City's Strategic Plan goals and objectives, which may also alter the City's objectives, strategies, and performance expectations for the remainder of Fiscal Year 2010 and beyond.

Goal 1: Instill community pride and ownership

It is in the community where the Department must focus a majority of its attention. Ensuring that the community is satisfied with the services it provides is paramount. The Department must improve avenues for community input and feedback in order to produce the most effective and valuable services. The Department will move toward accomplishing this goal by focusing on the following objectives.

- Provide inviting facilities and faces for the community
- Increase and diversify community involvement
- Improve public awareness of park successes, programs, and activities
- Increase volunteerism of children, youths, and young adults in the park system

Goal 2: Invest in environmentally-sensitive programs and practices

It is the Department's duty to ensure that future San Diegans enjoy the rich environment we enjoy today. As a result, the Department strives to take part in environmentally-sensitive practices that promote protection and preservation. The Department will move toward accomplishing this goal by focusing on the following objectives.

- Expand environmentally-sensitive management and maintenance practices
- Protect public lands and utilize best management practices for environmental preservation

Goal 3: Maintain public safety and quality park maintenance

Safety and cleanliness are the two most important and transparent issues that the community has when visiting parks. It is the Department's goal to maintain City park conditions through scheduled maintenance and responsive repairs and create the safest environment for park-goers. The Department will continue to meet this goal by focusing on the following objectives.

- Maintain grounds in good condition
- Maintain facilities in good repair (maintenance and management)
- Work to ensure that the public is safe in parks and surrounding areas

Goal 4: Provide high quality services

In order to keep pace with the demands of the ever-changing community, the Department is committed to enhancing the quality of the services it provides. The Department will move toward accomplishing this goal by focusing on the following objectives

- Create a culture of high-quality customer service
- Expand the use of service-enhancing technologies

Goal 5: Deliver innovative, responsive programs

With the changing environment and conditions in our diverse City, it is important for the Department to be responsive to the community's needs. Developing community partnerships and a more intimate relationship with the community

will assist the Department in becoming more responsive and effective. The Department will move toward accomplishing this goal by focusing on the following objectives.

- Develop recreation programs that are responsive to community needs
- Improve relationships with community service organizations

Goal 6: Develop and retain committed, valued employees

Part of achieving excellence in any organization is the development of its employees. As the Department strives for a more efficient and effective organization, it must focus on developing its workforce. The Department will move toward accomplishing this goal by focusing on the following objectives.

- Improve recruiting
- Expand training opportunities for employees

Service Efforts and Accomplishments

Therapeutic Recreation Services provided a variety of programs in 2009 such as adaptive sports, fitness, tournaments, specialized day camps, inclusion activities, referrals, and outreach services to more than 50,000 participants.

The Department partnered with the San Diego Unified School District (SDUSD) to offer the Summer Lunch Program at 21 recreation centers throughout the City. The program served 51,000 lunches and 37,000 snacks to children ages 2-18 years living in low-income communities.

In partnership with San Diego Police Department, the Park and Recreation Department received \$101,500 of grant funds to reduce gang activity, membership, and crime. The grant allowed for an increase to recreational program hours at Memorial, Mountain View, and Southcrest recreation centers from 6:00 P.M. to 9:00 P.M. providing an alternative to participation in gang activity.

Balboa Park's trail system expanded with the addition of two new trail gateways. The identification and mapping of trails in the park has resulted in a significant increase in hikers, joggers, and bikers in areas which were previously underutilized. In addition, more than 4,000 volunteers donated over 18,000 hours of service to Balboa Park which has lead to enhancements throughout various areas. Support from philanthropic organizations aided in the completion of important projects in the Park for all visitors to enjoy such as the Juniper Trail staircase, the Gardens of Balboa Park Self-Guided Walk brochure, the Balboa Park Trails System, and the Carillon Bells of the California Tower.

Mission Bay Park completed several maintenance projects: the redesign and reroute of the irrigation system within Crown Point to better comply with Best Management Practices; increased cleaning of the French drains located throughout the Park; installation of battery operated irrigation clocks at the west and east interchange and Dana Landing for better water management; renovation and improvement Lot A (a native plant garden at Hospitality Point); trimmed 100 Allepo Pines in Vacation Isle and North Ski Beach; and installation of the final phase of the Geographical Information System (GIS) to allow staff to better visualize Mission Bay assets and irrigation.

For the sixteenth year, the Beach Maintenance Waste Stream Diversion Program continued to separate reusable materials, recyclable greens, and metals from the debris and illegally-dumped materials found in Mission Bay Park and Shoreline Parks. The Beach Mechanized Crew provided support to the Lifeguard Safety Services by moving portable lifeguard towers to storage in the winter and back to their summer locations in the spring. Mechanized Beach Maintenance staff has also kept beaches free of dangerous debris, washouts, and holes that impact lifeguard emergency responses in many areas, as well as building and maintain storm berms at various location along the coast and within Mission Bay Park. The Shoreline Parks Maintenance staff continues to provide clean and safe parks, comfort stations, and piers for visitors to enjoy on a daily basis. In addition to regular duties, Shoreline Parks staff schedules a seasonal evening shift for late park and comfort station cleaning during the busy summer months.

The Department received approval on three Federal Emergency Management Agency (FEMA) grants to partially fund the Open Space Division Brush Management Program. Overall, funding has been established to allow the Department to thin approximately 590 acres of brush per year on park property near structures (100 feet). As of February 17, 2010 staff has thinned 334 acres of brush.

Golf Operations hosted several major events including the Callaway Junior World Golf Championship, the Men's, Senior Men's, and Women's City Amateur Golf Championship. In September 2009, the Torrey Pines South Course hosted the Ladies Professional Golf Association (LPGA) Samsung World Championship and then in January 2010 Torrey Pines Golf Course hosted the highly-publicized Professional Golfers Association (PGA) Tour Event Farmers' Insurance Open.

Department Summary
